

CanadaHelps is looking for a smart, thoughtful, and self-starting Senior Django Developer with a passion for social change to join our team. This is an opportunity to join one of Canada's first and North America's most successful social enterprises. We have a small, dedicated team of entrepreneurial-minded peers who have a passion for helping small and medium sized charities succeed, while engaging with donors to increase giving in Canada.

We believe technology and data are transformational game-changers for generating social profit. We democratize access to technology by providing affordable, online fundraising and training tools to more than 15,000 registered charities across Canada and collect donations for 70,000 others. Come on board as we update our application to better serve the modern, demanding donor, and our charity partners who are facing new fundraising challenges. You'll be helping CanadaHelps modernize by building tools that help donors and charities make a difference. We are adding features such as fundraising tools, donor management systems, event management, and integrations with standard CRM and account applications. We have so many things to do you'll never be bored.

Our ideal candidate will have:

- A degree in computer science (or equivalent experience)
- 3+ years of experience building web applications in Python and Django web framework
- 5+ overall years of development experience
- Experience with front-end component development using React
- Experience with front-end development using Bootstrap, SASS/CSS, and jQuery
- Experience in eCommerce, Linux, and PostgreSQL
- Understanding of the importance of test coverage and CI
- A Git pro

Bonus points:

- Wordpress or Django based CMS tools experience, building widgets
- Elastic search, celery, RabbitMQ, Redis
- .NET and SQLServer experience
- Docker containers

Here's what we have to offer:

- A chance to make a difference and a unique opportunity to add major value as a key member of a small team in a forward-thinking, technology-focused environment, with dynamic opportunities and interesting challenges
- A full-time, permanent position with a competitive salary, benefits and RRSP matching.
- The opportunity to work with and learn from highly-respected professionals (and super nice people who want to change the world for the better!)
- A no B.S., "get things done", open, collaborative and flexible environment
- A lifestyle friendly, work-life balance

Please submit your **resume** and **cover letter** by email to **careers@canadahelps.org**. Please include **“Django Developer”** in the **subject line** of your email. While we thank everyone for their interest, only those selected for an interview will be contacted. No phone calls please.
